ANTARES
TECHNOLOGY SOLUTIONS

STAY LIGHT YEARS AHEAD OF YOUR COMPETITION WITH OUR INNOVATIVE TECHNOLOGY SOLUTIONS.

Custom Software Development
Portals • Legacy System Conversion
Embedded Project Teams • Mobile Apps

SOLUTIONS:

Custom Software Development

"With Antares' help, we went from using time-consuming manual input methods and four different applications to using a single custom software system that automated several jobs, streamlined our workflow, is admin manageable, and eliminated human error. It also allowed us to increase our business and provide better service to our customers without adding staff!"

- CFO, LIPCA

Client & Vendor Portals

"Antares worked with us to create a Statewide Portal so that users could remotely access land and marriage records without having to visit each individual parish website or local courthouse. Our Portal has been very successful and is a great asset to the citizens of Louisiana."

- Executive Director, Louisiana Clerks of Court

Legacy System Conversions

"We needed our Jail Log Book program rewritten in a more efficient and current technology. Antares created a web-based application that has greatly improved our tracking and reporting activities. Additionally, our IT department can now fix issues remotely instead of making regular service calls to the Sherriff's Department. The application has also enabled us to upgrade all of the old computers in the field."

- I/S Project Manager, St. Tammany Parish Sheriff's Office

Embedded Project Teams

"We needed a full-time project manager to oversee the building and implementation of our new eCommerce system, but our own staff was already stretched thin. Antares filled that position for us, and also assisted with providing a new, client document portal as part of their work with us. They have been a tremendous asset to our business."

-VP of Sales and Marketing, Bayou Steel Group

WHAT SETS ANTARES APART?

We work hand-in-hand with your team to develop cutting-edge, innovative solutions that will propel your business light years ahead of the competition. Here are a few of the reasons why our clients choose Antares for their technology needs:

- *30+ years of award-winning custom software development experience across various industries*
- *Exemplary reputation for our project management and development experience, implementation and support*
- *Local talent deployed nationally*
- *Continuing education of our staff*
- *Executive involvement in all projects*
- *Proven track record*
